VERTICAL BLINDS - BY UNILINE

VERTICAL BLINDS

Always elegant, vertical drapes by Uniline offer cutting-edge design, smooth operation, and insulation from the elements. Their sleek form suits modern decors that embrace clean, uncluttered lines, while their practicality makes them ideal for sliding doors or larger windows. Close them to block out heat, cold or glare, or have them partially open.

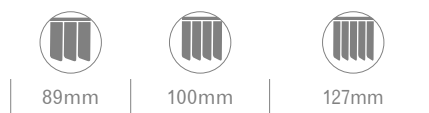

With versatile verticals, the choice is yours. Uniline Slim-series comes in two systems Wand and Chain/Cord with easy rotation to allow you to control light levels and privacy. Both systems feature stainless steel components, which resist rust – even salt-sprayed coastal climates.

WAND VERTICAL BLIND SYSTEM

The Wand option system is so easy to use. The wand rotates the blades, hold and lead the wand in the direction you require the blades to be drawn. With their streamlined appearance and practical functionality, these blinds are a popular choice for large windows and sliding doors that require easy and frequent access.
