Quality Innovative Window Furnishing Solutions

Perfect for any room in the house including bathrooms & kitchens

Whitehaven PVC Shutters are a premium shutter extruded from high quality PVC. All blades and stiles are reinforced with aluminium inserts. As a result, Whitehaven has more durability, strength and stability than other inferior PVC shutters.

Whitehaven PVC shutters are skillfully constructed using both mortice and tenon joints and screws to ensure product longevity – this is backed by our 10 Year Finished Product Warranty.

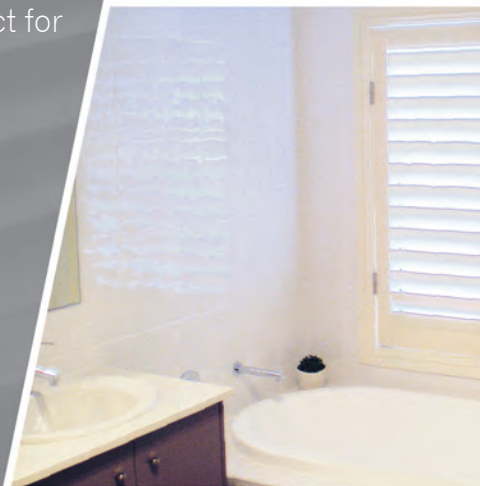

Whitehaven PVC shutters are also unaffected by moisture, heat and humidity. This is due to the water and heat resistant properties of PVC. Easily cleaned with a damp cloth, Whitehaven is a leading choice for its diverse applications throughout the home. Suitable for any room in the house, including bathrooms and kitchens. Whitehaven is also perfect for creating room dividers in larger areas.

Whitehaven PVC Shutters

Whitehaven is a superior internal PVC Shutter - it is about what's on the inside that makes the difference.

An aesthetic, modern, internal shutter, Whitehaven provides privacy while giving you the ability to control light and airflow into a room. Create a luxurious barrier that enhances and adds value to your property. Plantation shutters are one of the only window furnishings seen to have this positive affect.

Whitehaven PVC Shutters are made from high quality 'non-toxic' PVC which do not omit volatile organic compounds (VOC) or harmful emissions. Therefore, this makes them safe for the whole family. Whitehaven PVC Shutters are perfect for all domestic and commercial uses.

Available in 4 colours, Whitehaven PVC Shutters add sophistication, style and elegance to any room.
